PROFESSIONAL SUMMARY

Results-driven Frontend Developer with 3+ years of experience crafting high-performance, scalable web applications. Specialized in React.js, JavaScript, and modern UI frameworks to build seamless, user-centric digital experiences. Proven track record of boosting application performance by up to 70% and enhancing user engagement through optimized, responsive designs. Adept at collaborating in Agile environments, translating business requirements into intuitive interfaces, and delivering clean, maintainable code. Passionate about leveraging emerging technologies, including AI, to create future-ready web solutions.

SKILLS

Technical Skills : React.js, JavaScript (ES6+), Next.js, HTML5, CSS3, Redux Toolkit, TypeScript, SCSS, Tailwind CSS, Bootstrap, REST APIs Integration, Node.js, Express.js, MySQL, JSON, Ionic, Git/GitHub, Postman, Python, Java, UI/UX Design, Performance Optimization, Generative AI, Web Performance Optimization, Core Web Vitals, Responsive Design, Cross-Browser Compatibility

Professional Skills: Communication, Leadership, Problem Solving, Adaptability, Quick Learning, Team Collaboration

WORK EXPERIENCE

Frontend Developer — Codeclouds IT Solutions

Apr 2024 – Present

- Architected and maintained interactive web interfaces for 20+ sites using React.js, Semantic HTML5, CSS3, and JavaScript DOM scripting.
- Implemented responsive layouts with advanced CSS3, achieving 100% cross-browser compatibility
- Boosted application performance, cutting load times by 70% through efficient DOM manipulation
- Collaborated with UX/Design and Development teams in Agile sprints, improving project delivery speed by 25%
- Managed 15+ projects with comprehensive documentation and version control through Git, ensuring seamless execution

Frontend Developer — Tangent Tech Solutions

Jan 2023 – Mar 2024

- Crafted visually engaging web interfaces using Bootstrap, React.js, improving user experience and increasing engagement by 25%
- Transformed structured JSON data into interactive dashboards, improving data accessibility and insights by 40%
- Integrated React Router DOM for seamless navigation, reducing bounce rate by 15%
- Delivered responsive React UI components, improving accessibility and user engagement by 30%
- Enhanced application performance, achieving a 30% reduction in load time through optimized code

Ambassador — ISRA

July 2021 – Nov 2021

- Promoted awareness of 10+ government welfare schemes, reaching 500+ individuals through community outreach initiatives
- Demonstrated strong ownership by consistently completing 100% of assigned tasks within deadlines
- Gained hands-on exposure to NGO operations, contributing to 3+ community-driven initiatives
- Maintained high-quality delivery across all assignments, ensuring consistent performance and reliability
- Strengthened adaptability and communication skills, effectively collaborating in cross-functional teams

PROJECTS

Meosy Pet Store (mayankstudypoint.com/meosy)

- Engineered a pet store application using React.js and SCSS, boosting user engagement by 25%
- Integrated React Router DOM for seamless navigation, reducing bounce rate by 15%
- Enhanced application performance, achieving a 30% reduction in load time through optimized code

Mayank Study Point (mayankstudypoint.com)

- Developed an ed-tech platform using Node.js, MySQL, and React.js, improving user experience by 30%
- Designed responsive interfaces to ensure optimal user experience across all devices
- Improved application speed, reducing load time by 30% through optimized code structure

Projects (mayankstudypoint.com/project/)

- Built a React-based web application showcasing multiple interactive mini-projects to demonstrate core JavaScript concepts and UI design.
- Implemented component-based architecture, improving code reusability and scalability
- Designed responsive UI using CSS, ensuring compatibility across devices
- Deployed the application on a live server for real-time access

EDUCATION

Master of Computer Applications (AI & ML) — Amity University

Jan 2024 – March 2026

- Pursuing Master of Computer Applications (MCA) with specialization in **Artificial Intelligence & Machine Learning** from Amity University (Online)
- Built a strong foundation in Java, Python, DBMS, and Software Development Life Cycle (SDLC)

Bachelor of Arts (English Honours) — Mankar College

Aug 2019 – Sept 2022

- Completed **Bachelor of Arts (English Honours)** from Burdwan University, developing strong communication and analytical skills
- Strengthened critical thinking and problem-solving abilities, supporting effective collaboration and decision-making

CERTIFICATIONS

- Full Stack Web Design & Development – CACA Tech Media
- The Complete Full Stack Web Development Bootcamp — Udemy
- The Ultimate React Course — Udemy
